

Introduction

Nashua Limited is not only a leading distributor of digital office automation and document output solutions in Southern Africa, but is also a leading provider in the marketplace in the Managed Document Solutions (MDS) field.

Nashua's MDS approach analyses an organisation's processes and document workflow. Working with Nashua can revolutionise the way your organisation manages information. Nashua's end goal is aimed at implementing workflow and information management solutions that reduce cost and complexity, thus improving operational effectiveness.

Companies that fully embrace the Nashua MDS measure can find that it serves as a potent catalyst for business and technology change. Greater enterprise value will accrue from enhanced controls, improved information quality and a more streamlined structure, thus resulting in huge cost savings and minimized complexities.

Nashua ProAct

Nashua ProAct is an innovative fleet management solution that helps Nashua to increase our office efficiency and productivity for all of our document output devices, through constant monitoring of your printers or MFP's. Nashua ProAct reports critical status and condition information to our technical data centers. Moreover this solution is provided to you at no cost as it allows us to deliver our best possible service!

So how does it work? Nashua ProAct collects data on an ongoing basis and delivers the information in the form of customisable statistics and analysis reports, thus assisting our service departments' efficient maintenance of your print infrastructure resulting in advanced performance levels. Meter readings are automatically synchronized with Nashua's ProAct server, eliminating manual capturing of the data while delivering increased billing accuracy. Lastly adaptive service management proactively manages your toner supplies, ensuring the right supplies are delivered to you at the right time without you having to lift a finger!

Complete control over print, copy, scan and fax

PaperCut MF is an easy to use, low cost software application for commercial organisations that lets you control and manage your printers, copiers and multi-function devices.

What can Papercut bring to your organisation?

PaperCut is developed by a technically focused team who understand the ongoing print management needs of commercial organizations, these include:

Track usage of MFD's / Printers

Using embedded software PaperCut MF ensures only valid and authenticated users may use the device. Once authenticated, the same software allows you to track & control all activity, including copies, faxes, scans and printing.

Reporting

PaperCut is packed full with over 80 prebuilt reports as well as 'ad-hoc' reporting. All reports can be sent or scheduled to be emailed to key staff members automatically.

Recover costs & eliminate waste

PaperCut can be tailored to your organization by implementing management strategies such as filters, restrictions and job redirection.

Secure print release

Sensitive documents? PaperCut has many ways of ensuring that your confidential documents are protected. You can use the PaperCut embedded application to ensure no one else picks up the job at the copier, or release your job at any printer with your smart phone using the Mobile Print Release application.

NASHUA

saving you time. saving you money. putting you first.

PaperCut™
