

Introduction

Nashua Limited is not only a leading distributor of digital office automation and document output solutions in Southern Africa, but is also a leading provider in the marketplace in the Managed Document Solutions (MDS) field.

Nashua's MDS approach analyses an organisation's processes and document workflow. Working with Nashua can revolutionise the way your organisation manages information. Nashua's end goal is aimed at implementing workflow and information management solutions that reduce cost and complexity, thus improving operational effectiveness.

Companies that fully embrace the Nashua MDS measure can find that it serves as a potent catalyst for business and technology change. Greater enterprise value will accrue from enhanced controls, improved information quality and a more streamlined structure, thus resulting in huge cost savings and minimized complexities.

Nashua ProAct

Nashua ProAct is an innovative fleet management solution that helps Nashua to increase our office efficiency and productivity for all of our document output devices, through constant monitoring of your printers or MFP's. Nashua ProAct reports critical status and condition information to our technical data centers. Moreover this solution is provided to you at no cost as it allows us to deliver our best possible service!

So how does it work? Nashua ProAct collects data on an ongoing basis and delivers the information in the form of customisable statistics and analysis reports, thus assisting our service departments' efficient maintenance of your print infrastructure resulting in advanced performance levels. Meter readings are automatically synchronized with Nashua's ProAct server, eliminating manual capturing of the data while delivering increased billing accuracy. Lastly adaptive service management proactively manages your toner supplies, ensuring the right supplies are delivered to you at the right time without you having to lift a finger!

Complete control over print, copy, scan and fax

PaperCut MF is an easy to use, low cost software application for commercial organisations that lets you control and manage your printers, copiers and multi-function devices.

What can Papercut bring to government?

PaperCut is developed by a technically focused team who understand the ongoing needs of print management within the government sector, these include:

Going Green

Using PaperCut environmental impact reporting, print activity is converted to consumption data e.g. percentage of trees consumed. Users can view and make greener choices when printing.

Applying Your Own Print Policies

Good print management is more than replacing toner cartridges. Be proactive! Use PaperCut to manage printing and encourage sensible use with print management best practise.

Cross Platform Solution

PaperCut is the only print and copy management package that supports Mac, Windows, Linux, Unix and Novell with no additional modules or licensing costs.

Administering Centrally & Manage Easily

PaperCut is designed for automatic management. PaperCut can be setup and left running for months without any ongoing manual maintenance due to features like; Automatic user synchronisation, Auto report generation, User self-registration and automatic printer provisioning.

NASHUA

saving you time. saving you money. putting you first.
