NASHUA

saving you time. saving you money. putting you first.

Introduction

Nashua (Pty) Limited is not only a leading distributor of digital office automation and document output solutions in Southern Africa, but is also a leading provider in the marketplace in the Managed Document Solutions (MDS) field.

Nashua's MDS approach analyses an organisation's processes and document workflow. Working with Nashua can revolutionise the way your organisation manages information. Nashua's end goal is aimed at implementing work flow and information management solutions that reduce cost and complexity, thus improving operational effectiveness.

Companies that fully embrace the Nashua MDS measure can find that it serves as a potent catalyst for business and technology change. Greater enterprise value will accrue from enhanced controls, improved information quality and a more streamlined structure, thus resulting in huge cost savings and minimized complexities.

Nashua ProAct

Nashua ProAct is an innovative fleet management solution that helps Nashua to increase our office efficiency and productivity for all of our document output devices, through constant monitoring of your printers or MFP's. Nashua ProAct reports critical status and condition information to our technical data centers. Moreover this solution is provided to you at no cost as it allows us to deliver our best possible service!

So how does it work? Nashua ProAct collects data on an ongoing basis and delivers the information in the form of customisable statistics and analysis reports, thus assisting our service departments' efficient maintenance of your print infrastructure resulting in advanced performance levels. Meter readings are automatically synchronized with Nashua's ProAct server, eliminating manual capturing of the data while delivering increased billing accuracy. Lastly adaptive service management pro-actively manages your toner supplies, ensuring the right supplies are delivered to you at the right time without you having to lift a finger!

Compact and high value A4 B/W multifunctionals

The MP 301SPF is a fast black-and-white A4 multifunctional in a compact design. It offers advanced print, copy, scan and fax functions, available via a large 4.3-inch colour touch panel. This innovative device can easily replace several single-function devices and improve your workflow. The small footprint saves valuable office space. Nashua's next generation controller (GWNX) also gives you outstanding device management capabilities.

All-in-one performance

Next generation controller architecture (GWNX)

Featuring Nashua's next generation controller, the MP 301SPF interacts intelligently with users, improving access to information. Intelligent workflow features include the ability to customize the control panel, browse and print directly from the web.

TCO down

Minimise costs as well as your environmental footprint with energy saving features that reduce electricity consumption. A unique indicator gives an instant overview of your usage by device, month, week or even daily, to implement further Total Cost of Ownership reductions.

Environmentally friendly

At Nashua we help you lower your environmental footprint. The MP 301SPF has eco-friendly features such as sleep mode, duplex printing and paperless fax. The Typical Electricity Consumption is 1.5 kW/h at 30 cpm. An eco-friendly indicator displays information to help you reduce paper usage.

Intelligent compact design

The MP 301SPF has a smaller footprint than comparable MFPs. The simple and intelligent cube design optimises desktop workspace. The dual-colour design concept promotes intuitive usability.

Productivity up

With fast printing, copying and scanning, there is no need to wait around for your output. To speed up even more, you can create your own settings and set shortcuts for complex operations. You can also print from SD/USB (with optional HDD).

Simple to operate

With a tiltable 4.3-inch colour touch panel, the MP 301SPF is very easy to operate. You can customise the home screen to show only the icons you need. You can even insert your company logo on the screen. In addition, full front access eases operation and maintenance.
