NASHUA////

saving you time. saving you money. putting you first.

Introduction

Nashua (Pty) Limited is not only a leading distributor of digital office automation and document output solutions in Southern Africa, but is also a leading provider in the marketplace in the Managed Document Solutions (MDS) field.

Nashua's MDS approach analyses an organisation's processes and document workflow. Working with Nashua can revolutionise the way your organisation manages information. Nashua's end goal is aimed at implementing work flow and information management solutions that reduce cost and complexity, thus improving operational effectiveness.

Companies that fully embrace the Nashua MDS measure can find that it serves as a potent catalyst for business and technology change. Greater enterprise value will accrue from enhanced controls, improved information quality and a more streamlined structure, thus resulting in huge cost savings and minimized complexities.

Nashua ProAct

Nashua ProAct is an innovative fleet management solution that helps Nashua to increase our office efficiency and productivity for all of our document output devices, through constant monitoring of your printers or MFP's. Nashua ProAct reports critical status and condition information to our technical data centers. Moreover this solution is provided to you at no cost as it allows us to deliver our best possible service!

So how does it work? Nashua ProAct collects data on an ongoing basis and delivers the information in the form of customisable statistics and analysis reports, thus assisting our service departments' efficient maintenance of your print infrastructure resulting in advanced performance levels. Meter readings are automatically synchronized with Nashua's ProAct server, eliminating manual capturing of the data while delivering increased billing accuracy. Lastly adaptive service management pro-actively manages your toner supplies, ensuring the right supplies are delivered to you at the right time without you having to lift a finger!

Versatile solutions-ready workgroup MFPs

The MP 2001SP/MP 2501SP bring new possibilities to workgroups and small businesses. On their own, the A3 black and white MFPs provide productive and economical printing, copying and colour scanning. And that's just part of their appeal. The devices can also be integrated with software offering everything from electronic workflows to remote management. Other features normally found on higher speed devices include a customisable 4.3 inch colour touchscreen display and optional HDD. Now even small businesses can enjoy the cost savings and process efficiencies enjoyed by large enterprises.

Easy to use & flexible

Fast & Productive

The MP 2001SP/MP 2501SP lets you get more done, more quickly. A first page out in less than six seconds ensures a rapid job turnaround. And, with print speeds of up to 25ppm, even large documents are soon ready. Colour scanning at up to 50 images per minute extends the productivity benefits to digital workflows.

Easy to Use & Compact

Clever design maximises efficiency and MFP availability. A 4.3 inch colour touchscreen gives one-touch access to functions and personalised workflows. Front access lets you remove paper jams and remote management ensures trouble-free operation. The space-saving cube design lets you position the MFPs exactly where they are needed.

Economical & Efficient

The MP 2001SP/MP 2501SP are economical in every way. Energy- efficient operation keeps your electricity bills low and automatic double-sided printing cuts paper use. A dedicated ID Copy button saves time and paper by copying both sides of an ID card onto one side of paper. An eco-screen encourages good practice by showing users the savings they have made.

Colour touchscreen

The 4.3-inch colour touchscreen gives fast access to key features. It is tiltable and customisable with your company logo and your own choice of icons. You can even personalise it for each user. An integrated SD/USB slot enables walk-up users to print directly from removable storage devices.

GWNX controller

The solutions-ready GWNX controller brings high-end functionality to the MP 2001SP/MP 2501SP. With support for embedded and server-based solutions, it lets you streamline processes and improve device management. Or raise productivity by applying the same interface to every MFP on your network.

Enhanced features with optional HDD

The optional hard disk maximises the benefits of your investment by enabling advanced features. Use it for secure printing. To personalise the home screen for each user. Or to preview files when printing from USB storage devices. HDD encryption and overwrite guarantee data security.

Colour scanner

The colour scanner lets you improve document processes. Scan to email, folder or USB. Or to PDF-A for archiving. Scan previews provide reassurance that a document has scanned correctly.
