Introduction

Nashua (Pty) Limited is not only a leading distributor of digital office automation and document output solutions in Southern Africa, but is also a leading provider in the marketplace in the Managed Document Solutions (MDS) field.

Nashua's MDS approach analyses an organisation's processes and document workflow. Working with Nashua can revolutionise the way your organisation manages information. Nashua's end goal is aimed at implementing work flow and information management solutions that reduce cost and complexity, thus improving operational effectiveness.

Companies that fully embrace the Nashua MDS measure can find that it serves as a potent catalyst for business and technology change. Greater enterprise value will accrue from enhanced controls, improved information quality and a more streamlined structure, thus resulting in huge cost savings and minimized complexities.

Nashua ProAct

Nashua ProAct is an innovative fleet management solution that helps Nashua to increase our office efficiency and productivity for all of our document output devices, through constant monitoring of your printers or MFP's. Nashua ProAct reports critical status and condition information to our technical data centers. Moreover this solution is provided to you at no cost as it allows us to deliver our best possible service!

So how does it work? Nashua ProAct collects data on an ongoing basis and delivers the information in the form of customisable statistics and analysis reports, thus assisting our service departments' efficient maintenance of your print infrastructure resulting in advanced performance levels. Meter readings are automatically synchronized with Nashua's ProAct server, eliminating manual capturing of the data while delivering increased billing accuracy. Lastly adaptive service management pro-actively manages your toner supplies, ensuring the right supplies are delivered to you at the right time without you having to lift a finger!

Highly reliable A3 black and white MFPs

Your organisation is unique. Just like the way you do business. So why handle documents in the same way as everybody else? Nashua's A3 black & white MFPs have been designed for demanding environments in mid- to large-sized offices. These MFPs help you print, copy and share documents for extra convenience. Use them as your information portal. Monitor user activity, energy consumption and operating costs with powerful administration tools. You can even add this device to your Nashua Managed Document Services (MDS) approach to reduce costs. Available in a wide range of configurations, these models enhance your output from creation to finish.

- Time-saving: fast first print speed, rapid recovery from sleep mode.
- Highly productive: up to 60 black & white pages per minute.
- Easy to use: simplify your workflow and perform more tasks.
- Cost-saving: minimize operating costs with energy-saving features.
- Flexible: wide range of models to meet all your needs.

Customize workflows to simplify your work

You can customize these MFPs to meet your specific needs! Personalize the home screen with icons to access frequently used tasks with one single touch.

Move from job to job effortlessly

Perform more tasks

Whether you are printing, copying, scanning or faxing, this compact and affordable Nashua series helps you produce and share information quickly. Take advantage of intuitive one-touch controls, and move on to the next task with ease.

Share information faster

With this Nashua series you can easily switch between jobs. Recovery time from sleep mode is only 5 seconds and you can print up to 60 black & white pages per minute on a wide range of media. You can also scan up to 80 colour or black & white images per minute using the 100-sheet Automatic Reversing Document Feeder (ARDF). Not fast enough? You can also opt for the 220-sheet Single Pass Duplex Feeder, scanning up to 180 ipm.

Protect your documents

Advanced user authentication helps prevent unauthorized access to documents. Documents are stored at the device until an authorized ID card is swiped or a passcode is entered at the MFP. For additional protection, you can use encrypted PDF transmission to scramble data on confidential PDFs or add watermarks. The Data Overwrite Security Unit (DOS) automatically overwrites latent images and data on the hard drive to render them unreadable.

Access everything you need with ease

Perform daily tasks more efficiently with the intuitive, simple-to-use interface. Opt for additional paper trays to increase paper capacity up to 4,700 sheets for uninterrupted runs. You can choose from several finishers, including the stapleless finisher (only available on MP 2554/3054/3554). This 250-sheet internal stapleless finisher binds up to 5 sheets of paper with no staples, lowering supply costs and expediting future paper recycling.

Manage and monitor remotely

With this Nashua series, you can see how terms like "efficiency" and "productivity" fit into your workday. Use the intuitive administration controls to automate meter reads, access system settings, streamline firmware updates and more, right from your desktop. Get alerts when supplies are low or maintenance is needed. Monitor usage for specific users and configure your entire fleet remotely from the easy-to-use, Web browser-based operation panel.

Minimize energy consumption and operating costs

Choose this Nashua series for low cost-per-page and best in class Typical Electricity Consumption (TEC) values that help support your budgetary needs and sustainability goals. With a shorter print/copy time from sleep mode, this Nashua series keeps up with today's fast-paced businesses. You can program the device to power on or off during specified times to conserve energy for even greater savings. Automatic and fast double-sided printing is standard to save time, paper and cost. Plus, the device is certified with the latest ENERGY STARv2.0 specifications.

Manage and boost workgroup output

Today's fast paced offices need to work more efficiently. These MFPs feature a powerful processor, 2 GB RAM and a 320 GB HDD to run multiple jobs at the same time. You can set quotas or limit output for specific users to encourage more responsible printing. Take advantage of the icon-driven PCL6 user interface to print crisp output up to 1,200 dpi in fewer steps.

Main Specifications

| GENERAL | |
|-------------------------------|--|
| Warm-up time: | 14 seconds (SP models) 71 seconds (Z models) |
| First output speed: | 4.6/4.6/4.3/4/2.9/2.9 seconds |
| Continuous output speed: | 25/30/35/40/50/60 pages per minute |
| Memory: | 2 GB |
| HDD: | 320 GB |
| Dimensions (W x D x H): | With ARDF: 587 x 680 x 913 mm With SPDF: 587 x 680 x 963 mm |
| Weight: | With ARDF: 68.5 kg With SPDF: 74 kg |
| Power source: | 220 - 240 V, 50/60 Hz |
| COPIER | |
| Copying process: | (Twin) laser beam scanning and electro-photographic printing |
| Multiple copying: | Up to 999 copies |
| Resolution: | 600 dpi |
| Zoom: | From 25% to 400% in 1% steps |
| PRINTER | |
| Printer language: | Standard: PCL5e, PCL6(XL), PDF direct print Option: XPS, Adobe® PostScript® 3TM, IPDS |
| Print resolution: | Maximum: 1,200 x 1,200 dpi |
| Interface: | Standard: USB 2.0, SD slot, Ethernet 10 base-T/100 base-TX, Ethernet 1000 Base-T Option: Bi-directional IEEE 1284, Wireless LAN (IEEE 802.11a/b/g/n), Bluetooth, Additional NIC (2nd port) |
| Network protocol: | TCP/IP (IP v4, IP v6), Option (IPX/SPX) |
| Windows® environments: | Windows® XP, Windows® Vista, Windows® 8.1, Windows® Server 2003, Windows® Server 2012, Windows® Server 2012R2 |
| Mac OS environments: | Macintosh OS X Native v10.6 or later |
| UNIX environments: | UNIX Sun® Solaris, HP-UX, SCO OpenServer, RedHat® Linux, IBM® AIX |
| SAP® R/3® environments: | SAP® R/3® |
| Other supported environments: | NDPS Gateway, AS/400® using OS/400 Host Print Transform, IBM iSeries |
| SCANNER | |
| Scanning speed: | ARDF: Max. 80 originals per minute SPDF: Max. 110(simplex)/180(duplex) originals per minute |
| Resolution: | Maximum: 600 dpi |
| Original size: | A3, A4, A5, B4, B5, B6 |
| Bundled drivers: | Network TWAIN |
| Scan to: | E-mail, Folder, USB, SD card |

| PAPER HANDLING | |
|---|---|
| Recommended paper size: | A3, A4, A5, A6, B4, B5, B6 |
| Paper input capacity: | Maximum: 4,700 sheets |
| Paper output capacity: | Maximum: 3,625 sheets |
| Paper weight: | Paper tray(s): 60 - 300 g/m ² Bypass tray: 52 - 300 g/m ² Duplex: 52 - 256 g/m ² |
| FAX | |
| Circuit: | PSTN, PBX |
| Compatibility: | ITU-T (CCITT) G3 |
| Resolution: | 8 x 3.85 line/mm, 200 x 100 dpi 8 x 7.7 line/mm, 200 x 200 dpi Option: 8 x 15.4 line/mm, 400 x 400 dpi, 16 x 15.4 line/mm, 400 x 400 dpi |
| Modem speed: | Maximum: 33.6 Kbps |
| Transmission speed: | G3: 2 second(s) |
| Memory capacity: | Maximum: 60 MB |
| ECOLOGY | |
| Power consumption: | Maximum: 1.78 kW Ready mode: 54.6 W (25/30/35 ppm), 81.4 W (40/50/60 ppm) Sleep mode: 0.49 W (25/30/35 ppm), 0.51 W (40/50/60 ppm) |
| SOFTWARE | |
| Standard: | Web Image Monitor |
| Optional: | Card Authentication Package, Enhanced Locked Print, Unicode Font Package for SAP |
| OPTIONS | |
| 1 x 550-sheet paper tray, 2 x 550-sheet paper tray, 2,000-sheet large capacity tray, 1,500-sheet side large capacity tray, Bridge unit, 1,000-sheet finisher, 3,000-sheet finisher, Internal finisher, Internal finisher with stapleless stapler, 1,000-sheet booklet finisher, 2,000-sheet booklet finisher, Punch kits, Internal shift tray, One-bin tray, Side tray, Bi-directional IEEE 1284, USB Device Server, Bluetooth, Netware, PostScript3, IPDS unit, Browser unit, Counter interface, File format converter, Key counter bracket, Card reader bracket, Copy Data Security Unit, Fax Connection Unit, Fax marker, 2nd Super G3 port, Fax memory, Fax option, Wireless LAN (IEEE 802.11a/g/n), OCR Unit, Smart Card Reader Built-in Unit, XPS direct print, Enhanced security HDD | |
| The internal finisher is not an option for the 60 ppm models. The stapleless finisher is not an option for the 40/50/60 ppm models. The 2,000- and 3,000-sheet finishers are not an option for the 25/30/35 ppm models. | |
