NASHUA

saving you time. saving you money. putting you first.

Introduction

Nashua (Pty) Limited is not only a leading distributor of digital office automation and document output solutions in Southern Africa, but is also a leading provider in the marketplace in the Managed Document Solutions (MDS) field.

Nashua's MDS approach analyses an organisation's processes and document workflow. Working with Nashua can revolutionise the way your organisation manages information. Nashua's end goal is aimed at implementing work flow and information management solutions that reduce cost and complexity, thus improving operational effectiveness.

Companies that fully embrace the Nashua MDS measure can find that it serves as a potent catalyst for business and technology change. Greater enterprise value will accrue from enhanced controls, improved information quality and a more streamlined structure, thus resulting in huge cost savings and minimized complexities.

Nashua ProAct

Nashua ProAct is an innovative fleet management solution that helps Nashua to increase our office efficiency and productivity for all of our document output devices, through constant monitoring of your printers or MFP's. Nashua ProAct reports critical status and condition information to our technical data centers. Moreover this solution is provided to you at no cost as it allows us to deliver our best possible service!

So how does it work? Nashua ProAct collects data on an ongoing basis and delivers the information in the form of customisable statistics and analysis reports, thus assisting our service departments' efficient maintenance of your print infrastructure resulting in advanced performance levels. Meter readings are automatically synchronized with Nashua's ProAct server, eliminating manual capturing of the data while delivering increased billing accuracy. Lastly adaptive service management pro-actively manages your toner supplies, ensuring the right supplies are delivered to you at the right time without you having to lift a finger!

A truly reliable digital duplicator for effective printing

Copy directly from books and magazines to produce high-speed, low-cost A4/B4 copies and prints. Easy- to-use, very economical on the long run and network connectivity available. On top of that it gives you superior reliability and environmental value.

- Speedy performance and user-friendly functions that meet user needs.
- Superior reliability and environmental value.
- A device to depend on for high-volume printing.

Fast, durable and cost-efficient

Outstanding productivity & quality

The DD 3324/DD 3344 offers an exceptional output speed of 130 pages per minute, which helps high-volume printers maximise their productivity. In addition, both A4 and A3 input can be handled easily and the device fits on a desk close to the operator. Thanks to Nashua's increased scanning resolution of 600 x 660 dpi, the results truly stand out.

High environmental rating

Meeting the requirements of the International Energy Star program and complying with the standards of Electronic Product Environmental Assessment Tool (EPEAT) environmental rating system, this device has impeccable green credentials.

Reliability

You need real reliability for high volume printing, and with this device, that's exactly what you get. A dependable workhorse, it will keep your everyday operations running smoothly.

Cost savings

The DD 3324/DD 3344 has an excellent cost per page level. The longer the print run, the lower the individual cost per page. On long runs, the cost per page reduces and can fall considerably.
