Overview

Prevention or protection, what would you pick? What if you had the option of picking both...

In today's modern world, protection of your business has become more important than ever and with breaches and crime caused by human elements, our job is to study these beings and create boundaries that anticipate and pro-actively provide alerts for absolute prevention and protection.

We don't believe in vulnerability.

With Nashua IntelliSight's integrated technology system, our intelligent cloud storage safeguards you and your data. IntelliSight stores critical information on triggered events and alerts in the cloud, making sure that your event/ alert data is not only backed up, but also secure.

Therefore, in addition to storing information on your surveillance recorder's hard drive or another local storage device, you can secure it online, to Nashua IntelliSight's Cloud storage facility.

Should an incident require legal action, you can easily produce this indisputable recorded evidence from the Cloud. This on-demand evidence is simple and easy to retrieve and does not require using your recorders valuable storage space.

A real-time technology solution that integrates with intelligence and human ingenuity to create a comprehensive surveillance platform that prevents, protects and provides you with the right data, at any given time.

Nashua IntelliSight keeps you and your data protected.

How does this technology work for your Business?

The Internet provides the connection between your surveillance recorder and the IntelliSight service.

IntelliSight secures your critical information on triggered events and alerts to the cloud, guaranteeing that your event/ alert data is backed-up and secure. In the event of physical recorder tampering or failure, a secure data copy is stored in IntelliSight.

Retrieval of this information is simple and easy.

What are the benefits of this solution?

-  Secure backup solution for critical events and alerts for up to 3 months per camera
-  Cost effective backup solution
-  Simple and easy retrieval process of stored data
-  Supports physical cameras and mobile fleet camera solutions
-  Recording of events and alerts per camera

What are the benefits of this solution?

-  Corporate Businesses and Business Parks
-  Residential Living Estates
-  Logistic and Transport companies
-  Courier companies
-  Agricultural Industry
-  Commercial Farms and Small Holdings

In the real world, Nashua's Technology Solution never sleeps - it sees everything, from every angle, 24/7, 365.
